Press Release

WW2 Aircraft Profiles from Old School Model Works

We've combined 1/8" precision-cut, birch plywood pieces with a printed backing to create unique artwork that will look great in any home, office or hangar.

This multi-layered technique results in artwork that gives the appearance that it's "popping off" of the print with a 3D-effect.

Specifications of each aircraft (wingspan, length, maximum speed, and engine details) are printed below it's name. Each piece measures 11" x 14" and is mounted on a sturdy foam-board backer. They can be displayed as-is, or framed for an elegant way to brighten up any room.

Available WW2 profiles: Boeing B-17G Flying Fortress, Chance-Vought F-4U Corsair, Curtiss P-40 Warhawk, and North American P-51D Mustang.

Check our website often to see what other profiles we've added.

Retail Price - \$19.95 each, \$69.95 set of 4.
